BASEBALL NEWS.

At 4 am the morning of the 19th the baseball boys and fans woke up at the call of Manager Wyatt who never went to bed and prepared for their trip over to the C.N.R. to the tournament at Minburn where they were scheduled to play the first game of the day at 10.30 a.m. At 10.20 the Irma boys were on the grounds in uniform ready for play after 45 miles of mud and bad roads. After an hours wait the game started with Innisfree and was played between showers for the full nine innings and the score was 13-1 in favor of Irma. The boys were all working well and the game was much better than the score would show but the Irma boys would not let more than one man get to the home plate.

Two more games were played between showers before the finals started between Irma and Kiscotay at 6.30 pm. This only lasted three innings and the rain was so heavy that it was called off.

Everyone got away for a good start to home except Dickson who only went about a mile when his car stopped and he found that a Chevrolet would not run without gas. After getting a gallon from one of the other cars things went better and everyone reached Mannville at 8.30 while the flood was on. It was decided to stay at Mannville until morning and this was done at a great expense to the baseball fund and the players and fans finally reached Irma about 12.00 tired but happy.

Do you know that the G.T.P. has a Baseball league?

A number of fans on the G.T.P. went to Wainwright on the 7th of June and held a meeting and a league was formed called the Buffalo league consisting of Wainwright, Viking and Irma.

The following officials were appointed: J. W. Wyatt, Pres., W. J. Jones, Vice Pres., G. C. Siddall Sec. Treas. Executive J. Slavik, Ross McFarland and V. E. Graham. E. T. McDowell referee for Irma. A set of rules to govern same was struck and preliminary arrangements for the drawing of a schedule arranged for games is as follows:-

June 28 Viking at Wainwright
July 9, Wainwright at Viking
July 14, Viking at Irma
July 21, Irma at Wainwright.

The admission was fixed at 25c and 50c. Proceeds to be divided 40% to winner and 30% to losers and 30% to league. The amount held by league to be divided equally at the end of the season.

New Train Service Over G.T.P. Lines

As the first tangible evidence from closer consolidation of Government controlled lines in Western Canada, the Grand Trunk Pacific and Canadian National Railways make the gratifying announcement that commencing on June 27th, train service between Winnipeg and Vancouver will be materially improved by which the inauguration of a new through, fast, limited, daily train which will leave Winnipeg at 10:25 p.m. arriving at Saskatoon 12:10 p.m., Edmonton 11:10 and Vancouver 9:00 a.m. returning leave Vancouver 8:00 p.m., Edmonton 8:00 a.m., Saskatoon, 7:10 and Winnipeg 11:00.

In line with the ownership and the importance of these trains, operating in this service, these two trains will be known both east and westbound as "The National". The equipment, in addition to the usual mail, baggage and express cars will consist of colonist cars, first class coaches, tourist cars standard sleeping cars, dining cars and compartment-observation cars. The passenger equipment is of the finest and every facility has been provided to furnish the highest degree of comfort to the patrons of these trains.

A very desirable feature of this service is that trains will operate over the shortest possible route, namely Grand Trunk Pacific railways between Winnipeg and Edmonton thence Canadian National Railways between Edmonton and Vancouver.

The necessity of establishing such a service has been demonstrated owing to the ever increasing popularity of the route covered by these two lines and the schedule has been so arranged that stops are made at important points only, for the purpose of best serving the hurried business man who desires to make a transcontinental trip in the shortest possible time and also ensures the tourist and pleasure-seeker of an opportunity to visit the Pacific Coast, or westerners to visit Eastern business centers and resorts and return within the usual vacation.

The desire of the management of these railways is to provide service that will appeal to all classes, and accommodation has been so provided and in addition thereto to this service will afford patrons of these trains an opportunity to see the development in Western Canada not only from an agricultural point but also from a scenic standpoint.

Connections will be made at Winnipeg to and from the East.

Willie Lattiner Drowns.

One of the saddest accidents that Irma district has had for some time happened last Monday afternoon when some children were playing in the water east end of town. Willie either stepped in a hole or slipped off the grade which was covered with water and before he was missed was drowned. Dr. McGregor was summoned and worked diligently on him but all sign of life was gone. Willie was a very bright boy, five and a half years old, the oldest son of Mr. and Mrs. Chas. W. Lattiner. The funeral was held Wednesday afternoon when Father Lemay, of Wainwright officiated. Mr. J. Kennedy, W. Ketchin, F. J. Hanson and E. Worth acted as pall bearers. A large number of sympathizing friends accompanied the remains to their last resting place. The Times joins in expressing condolence to the bereaved ones in their great loss.

Notice to Our Readers and Advertisers

Owing to lack of help and a holiday on July 1st, there will be no issue of The Irma Times next week. We expect to have a new printer on the job soon so that the work of the publishing and printing the Times will not be hindered.

Subscribers who are in arrears should pay up at once. The cost of publishing a paper is steadily on the up grade, and we need your subscription to keep the Irma district, and you can boost us by keeping paid up.

Attention !

The Ladies Aid are having a Social Evening at the home of Mrs. M. D. Askin, south of town, on June 30th, proceeds to put water tank in parsonage. Good lively program arranged.

Star Number—Baseball game between Ladies Aid and members of the Church Board.

LOCAL NEWS

Ladies Aid met with Mrs. J. H. Elliott, a large number were out and a very pleasant time was spent by all. Next meeting to be with Mrs. A. G. Walker.

Everyone come out to Askins on June 30th and see the Ladies Aid beat the Church Board at baseball.

On Wednesday, June 15th the Irma Intermediate ball team were successful in defeating the Wainwright high school team, 6 to 4.

Mr. and Mrs. W. B. Peterson are the proud parents of a baby girl, born June 20th.

Mrs. C. McKay spent the weekend in Edmonton.

Mrs. W. E. Edwards returned to Edmonton on Sunday.

Born to M. and Mrs. E. Erickson, a son, on June 20th.

Sunday Services.

Preaching service and Sunday School at Orbindale at 11.30 pm
Roseberry 3.00 pm

Regular Service at Irma 8 pm
Sunday School Sessions.

Irma 11 a.m.
Alma Mater 2.30 pm.
Roseberry 2.00 pm.

Everybody is invited.
C. G. Hockin, pastor.

LOCAL NEWS

Apparently the flood has drowned most of the gophers.

Lightning struck a building at A. W. Toll's and blew one end out.

Mr. R. Erickson lost two fat steers through lightning.

Mrs. Basset has been ill for a few days, we regret to report.

Mr. C. Lattiner is a busy man pumping out cellars.

Born to Mr. and Mrs. H. Mildon a son on Thursday June 24th.

Mr. Basset is installing his new soda fountain in the drug store.

Moore Bros. have installed a free air service station, the first one of its kind in town.

Mr. McQuire, of the U.G.G., intends spending a few days in the city next week, and the elevator will be closed Monday, Tuesday and Wednesday.

The auction sale on Mrs. D. C. Johnson's place, 6 miles southwest of Jarrow, and 10 miles northeast of Loughheed has been postponed to Tuesday, June 29th. SW 46-5-10. Those interested take notice.

Echoes Of The Great Rain.

Mr. Joe Guilbra started to town last Friday with a grain box and a can of cream. Just south of the coulee Joe came to a wet spot in the road thinking it would only be a couple of feet deep he started his team through it but before they had got nearly across the horses were over their backs in water. The wagon box floated raising the front bolster and king bolt enough to open the reach so that when Mr. Guilbra and the team reached the other shore he was minus the rear wheels. Just how deep the water was Joe was unable to say but he has marked the spot and intends to watch it until the water subsides so he can locate the missing wheels.

The G.T.P. were fortunate in having a gang working at the Kinsella gravel pit. Every Section man and all the spare men they could secure were rushed to the washouts east of Irma. The trains were crossing the damaged grades within 24 hours after the first bad storm. It will take some two weeks yet to make all the damage good, and will have used from 1500 to 2000 cars of gravel.

The Municipality of Battle River are arranging with the owners of land adjoining the places that have been flooded to have the fences moved so as to allow all traffic around the wet spots till they can be repaired.

Several foundations in town were badly damaged through the water undermining the foundations. The west wall under the building occupied by G. Manners collapsed.

Mr. T. Coulman lost five head of cattle through the sod building in which they had taken shelter collapsing.

The Town council have commenced ditching east of town in order to drain off the surplus water.

Lightning struck the house occupied by Mr. W. D. Nickel extinguishing the lights and giving the occupants a bad scare.

(Continued.)

"Boy," chided the father sternly, "you mustn't swear. Watson nor Hallibut, no other man is that bad. You've let the words get into you until you're fanciful. Read your Bible, and pray more."

"I didn't mean to swear, dad. I've sworn more today than I have for years. I can't stand to think that these men will steal this beautiful spot that is ours now, and cut and cripple it and drive its wild things away."

"Hallibut's saw mill is running nights," said the father thoughtfully. "He made French an offer for the day, but I guess it wasn't much. Joe owed him money."

"Well, us Bushwackers are going to hang together," said Boy. "We won't over two thousand acres of the best timber in Ontario. We can keep it by fightin'. If we don't fight—"

He turned and walked toward the door.

"Boy," warned the elder man, "don't you do anything you'll be sorry for. Just forget all about Watson and Hallibut for a time, 'cause I want to tell how we all come to be in this place we love so much."

"Before you were born, Boy, I lived in the States; ranched it in Arizona. And there was a man down there who as much as stole everything I had in the world. It was because of a woman that he lived to enjoy it all for a time. That woman was his wife, your ma's more'n friend, little Glossie's mother."

Boy looked up quickly, then dropped his head again.

"That woman was a lot to me and your mother. She was a lady, every inch of her, and educated. She taught your ma to be the scholar she is, and she was the kindest-hearted, sweetest woman that could be found in the world. Seems as she ran off from a fine home and rich people to marry that man. He was a bad 'un, her man; bad in every way a man can be bad, I guess. He drank and he abused her."

Big McTavish caught his breath hard.

"Course," he went on, "we might have killed him—lots of us there would have done more than that for his wife. But you see that woman stuck to him in spite of all he did to make her life hell; so we let him alone. Your ma worshipped her, and as near a mortal can worship mortal. Women are not very plentiful on the plains, Boy. When I lost everything to her husband, through his cheating me on a deal, and made up my mind to quit ranchin' and strike for some new country, she promised us that after her baby was born she'd come to us, no matter where we might be. You see it had come to such a pass that she simply couldn't live with that man no longer."

The big man paused to light his pipe, and Boy asked:

"Did she come?"

"No. We came direct here to Ontario and settled in this hardwood, me and your ma and Granny McTavish. All we had in the world was the clothes we wore and three hundred dollars in money. I took as much land as the money would buy from

Meeting World's Locomotive Needs

Scottswood Works Largest and Best Equipped in British Empire

London, England.—The world-wide shortage of locomotives and rolling stock which has resulted from five years of warfare is an obstacle of the first magnitude which must be surmounted before international transport and trade relations can be resumed on anything like normal conditions.

One of the largest engineering firms, whilst war was still proceeding, foresaw that an acute shortage of this kind was to be expected when peace came. The directors of this firm therefore carefully and methodically laid their plans, with a view to ensuring that this country should at any rate receive its fair share of the vast contracts for locomotives which after the war would undoubtedly have to be placed.

These carefully prepared arrangements have now materialized, and at the present time the Armstrong-Whitworth company is making a remarkable bid for the premier position amongst locomotive builders throughout the world. The vast ammunitions works at Scottswood on Tyne-side were allocated for the construction of locomotives. Immediately after the armistice they commenced their reorganization in this direction with a forceful thoroughness which has brought a splendid success.

Within the short space of a year the vast ammunitions plant has been swept away, new plant installed, and the first Armstrong-Whitworth locomotive—a powerful 0-8-0 type for the North Eastern Railway—was completed and delivered from their works. Today the Scottswood locomotive works are the largest and best equipped works of their kind in the British Empire. Their present output capacity is over 400 heavy main line engines per year.

It is understood, however, that the support which the new Armstrong enterprise has received from all parts of the world is such that consideration is now being given to new and important extensions in regard to the works. The result of such proposed extensions would be to make the Scottswood works probably the most important centre in the world for the construction of locomotives. Even under present conditions, the company anticipates that by the summer of 1920, the output will have increased to not less than 45 locomotives per week.

Protect the child from the ravages of worms by using Mother Graves' Worm Expeller. It is a standard remedy, and years of use have enhanced its reputation.

The sizes of birds do not always affect their eggs. For instance, the cuckoo and the jackdaw are about the same size, yet the latter's egg is five or six times larger than the cuckoo's.

CHAPTER IV.

On that triangular forestland of extreme south-western Ontario there was a block of hardwood timber, consisting of over two thousand acres. It was called Bushwacker's place. On its left lay a beautiful body of water named Rond Eau, and so close to this natural harbor grew the walnut trees that when the night wind old the moon cast their shadows far out across the tranquil waters. From the edge of the bay northward and westward the forest swept in valleys and ridges until the lower lands were reached. Then the hard timber gave way to the rugged softwoods of the swales, where the giant basswood, elms, and ash trees gripped the damp earth with tenacious fingers that ran far underground, forming a network of fibre, which to this day wears down the plowpoints of the tillers of the soil.

Why this upland was called Bushwacker's Place, or why the people who held possession there were called Bushwackers, has never been explained. In fact, those simple people were not bushwackers, but hunters, trappers, and fishermen. True, each landowner had cleared a little land, sufficient to raise the vegetables necessary for the table and fodder for his sheep, oxen, and pigs during the winter months; but the common tendency among the Bushwackers seemed to be to let the timber stand until it was required for firewood.

All buildings in Bushwacker's Place were constructed of logs mortised at the ends. The beams, rafters and floors of the homes were split or hewed from the finest grained timber procurable. When the walls were raised to a sufficient height, doors and windows were cut in them, the rafters of the roof were laid, and the wide slabs, split from straight-grained ash blocks, were placed on the roof, overlapping one another so as to shed the rain. Blue clay was dug from the logs to fill in the chinks between the earth. The Bushwacker's home was roomy, warm and comfortable.

(To be continued.)

Sunday Motoring Barred

In Switzerland motor cars will not be allowed to run during daylight hours on Sunday from May 1 to September 30. This regulation is intended to enable people who do not own automobiles to take their holiday excursion without being annoyed by dust.

Your Eyes

Granulated Eyelids. Inflamed by exposure to heat, dust and wind. Quickly relieved by Murine Eye Remedy. No Stinging. Just Eye Comfort. At Your Druggists or by mail—60c per Bottle. Write to Murine Eye Remedy Co., Chicago.

Chinese Adopting English

An explorer who recently returned from China, states that wherever he went he discovered that the natives were beginning to regard the English people with greater favor than was usual in the past. In Chinese schools for some years past the Arabic numerals have been in use. The figures 0, 1, 2, 3, 4, 5, 6, 7, 8, 9, are infinitely easier to learn than the cumbersome Chinese figures and as both are taught in the schools, it stands to reason that the young John Chinamen are going to favor the easier method. The Braille system is in use in China for the blind, owing to the prevalence of leprosy, are common in that country.

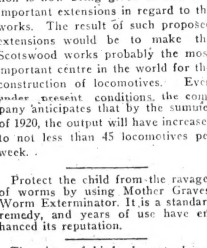

A Pill That is Prized—There have been many pills put upon the market and pressed upon public attention, but none has endured so long or met with so much favor as Farnell's Vegetable Pills. Widespread use of them has attested their great value, and they need no further advancement than this. Having firmly established themselves in public esteem, they now rank without a peer in the list of standard vegetable preparations.

Antique Grain Will Not Grow

The stories about the germination of wheat and other cereals, found wrapped up in ancient Egyptian mummies, are declared to be fictitious by the United States Department of Agriculture. French tests show that grain more than a few years old will not germinate. German tests indicate that when seeds are kept under ideal conditions, wheat, barley and oats may germinate up to eight or ten years, but few if any grains, are alive after twenty years.

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR

Let "Danderine" save your hair and double its beauty

Oh, girls, such an abundance of thick, heavy, invigorated hair is a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage.

Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; this magically removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stringy or faded, but charmingly soft, with glossy golden gleams and tender lights. The youthful glints, tints and color are again in your hair.

"Danderine" is a tonic-beautifier. Besides doubling the beauty of the hair at once, it checks dandruff and stops falling hair. Get delightful Danderine in a few cents at any drug or toilet counter and use it as a dressing and invigorator as told on the bottle.

**One Great Essential
To a Woman's Health
Is Her Nerves**

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung. The trouble is they pay more attention to their social and household duties than they do to their health. Is it any wonder then that they become irritable and nervous, have hot flushes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired-out, weary women need to restore them to the blessings of good health.

Mrs. P. H. Ryan, Sand Point, N.S., writes: "I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes, when I felt like a different person. I am never without a box of the pills and recommend them to all who suffer with their nerves."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The Largest Bible

Though the Bible Society has a remarkable collection of Bibles in its library, the largest and most wonderful Bible in the world is in the royal library at Stockholm. The covers are made of solid planks, four inches thick, and each measure a yard in length. It is estimated that a hundred asses' skin must have been used to furnish the 309 parchment leaves of this colossal book.

Hints on Summer Breaking

June or July the Best Months for Breaking on the Prairie

In dry, open prairie section do your breaking in June or early in July. The run-off is saved, and the sod more thoroughly rotted.

Turn the furrows over as flat as possible so as to exclude the air.

Leave no cut and cover patches. If the plow is thrown out, back up or turn around if necessary to pick the furrow up again.

When it is not intended to backset, plow at least four or five inches deep. This leaves some soil free from sod at the surface to work into a seed bed.

Follow the breaking plow with the packer as soon as possible. The packer attachment to the plow does good work. This excludes the air and prevents evaporation.

Follow the packer with the disc harrow as soon as the operation will not turn over the sod. Right after the first rain following the packing is a good time to do the dising.

Harrow or disc occasionally throughout the balance of the season to preserve the mulch and to keep weeds and grasses down.

In low, wet places defer the packing until the sod has dried out. This will help kill the grasses with creeping root stalks which grow in such places.

The new telescope of the Mt. Wilson Observatory in California is a quarter of a million times more powerful than the human eye.

Great Shipping Growth

Commerce on Great Lakes Has Increased Immensely

In the course of an article in the View on the proposed new deep waterway from the Great Lakes to the sea, interesting statistics are presented respecting the growth of shipping on these fresh-water bodies.

In 1850, the records show, the entire volume of freight on the Great Lakes amounted to only about 25,000 tons, carried on by a few small vessels. In 1916 there were 37,852 passages of vessels through the Detroit River, with a registered tonnage of more than 76,000,000, carrying 100,000,000 tons of freight of an estimated value of more than \$1,000,000,000.

In 1917 and 1918, owing to causes arising out of the war, this enormous water commerce was slightly reduced, but already there is reason to believe that it will be immensely increased during the next few years. The tonnage is already many times greater than that which passes through the Suez Canal.

ECZEMA

You are not experimenting when you use Dr. Chase's Ointment. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage. Get a box; all dealers or Edmundson, Bales & Co., Limited, Toronto.

VIKING

The band expect to appear on the street next Monday evening and play a few selections.

Work on the building for the Bank of Commerce is rapidly assuming proportions and if the carpenters keep up their present gait the staff will soon be able to move to their new quarters.

The village council turned down the petition for a Wednesday half-holiday on the grounds that it caused inconvenience to the farmers who come to trade here, and also on account of the bad season the past two years.

Mrs. Joseph Rogers and little son Bobbie, are visiting with Mr. and Mrs. Jas. Morrison at the gas well headquarters. Mrs. Rogers is a sister of Mrs. Morrison.

L. D. Green, of Fayetteville, Arkansas, arrived last week and intends to settle in this district. Mr. Green has a farm north of town and was employed in town about ten years ago. He notes many improvements in both town and district since that time. He recently made a trip to B.C. with the intention of settling there but it didn't look good so he came back here.

The Viking U.F.A. local held a well attended meeting in Cooke's hall on June 12th. The local decided to join the Victoria constituency independent political association and two delegates, Adolph Johnson and Wm. Kelly were elected to go to the political convention in Camrose July 7-8th.

After considerable discussion about the wheat board the result of the vote taken showed the majority in favor of the board.

On June 19th there was another farmers meeting held. Mr. Fleet, of Calgary, of the U.G.G. organization department, gave an address on co-operation. The hall was crowded with farmers who heard a forceful address brimful of good common horse sense, as President Wood used to say. He showed very plainly that the farmers movement was not the result of any political agitation, but a necessity for the farmers as a class in order to exist among the other organized lines of business. No movement ever came into existence without a special need for it and no movement ever existed any longer than it was needed. History and experience showed a steady evolution going on in the world. Nothing was fixed. One period needed certain conditions and a next period needed different conditions. He urged the farmers to organize, be loyal to their organization and each individual would benefit by it in proportion to the support he was giving his own organization.

The Board of Trade held a meeting in Cooke's hall last Friday evening and quite a number of the citizens and business men turned out. Ways and means of advancing the district in other provinces and the States were discussed and it was decided to place advertising in several of the leading farm papers and journals in Canada and the United States calling attention to the advantage of settling in this district.

President Fitzmaurice stated that he was in communication with an immigration official in North Dakota who was taking a party of over 200 settlers through here in a short time. The Board of Trade will endeavor to have the train stop here for a few hours so that the visitors will have a chance to look over the district. It is intended to make it a holiday, and some provision made for the entertainment of the visitors. If the plan materializes more definite information will be given next week.

Several accounts were ordered paid, and some new members added to the society, after which the meeting adjourned until next Friday in Cooke's hall.

A committee consisting Messrs. O. Fitzmaurice and R.W. Christy were appointed to solicit the business men for funds for the proposed advertising scheme, and make a report at the next meeting.

Edmonton Exhibition Camping Grounds

We understand that a number from this locality are considering the advisability of motoring to the Exhibition grounds in Edmonton and living in a tent on the fair grounds during the coming Exhibition, July 5th to 10th. This camping ground was very popular last year, solving two problems for the average farmer - accommodation, and expense. The Exhibition management have made arrangements with a tent company to supply tents at \$5 for the smallest size 8x10 feet for the week, \$6 for the week for the 10 x 12 feet size, \$7 for the 12x14, and \$8 for the 14 x 16 foot size. Iron double-tier cots with straw mattresses are supplied at \$2.50 each for the week. Free parking space is provided beside each tent for motor cars. Campers must provide their own bedding. A kitchen with good stove and running water is provided for the free use of campers.

The Provincial Health Department will conduct a baby clinic at the Edmonton Exhibition, and free examination of babies will be made by the department doctors and nurses, and the parents given advice as to care and feeding. Dr. T. J. Norman, Provincial health department or W. J. Stark, will be glad to furnish particulars as to this clinic.

Roseberry U.F.A.

Roseberry Local of the U.F.A. will hold a dance and picnic at Roseberry on Friday June 26th. Picnic commences at 2.30 p.m. Tickets—Gentlemen 25c, Ladies free. All ladies are kindly requested to bring 12c Kets.

It Makes Every Forkful of Manure Count for a Bigger Yield

ASK any user of the John Deere Spreader and he will tell you it is the best machinery investment he ever made—not only because it saves hard work and valuable time, but because it makes every forkful of manure count for a bigger crop yield.

Manure goes farther and does more good when you use a John Deere Spreader. You can spread manure evenly, heavy or light—no under-fertilized or over-fertilized spots.

spreaders. Here are a few things about its operating advantages we want to show you.

You get a low down spreader with high drive wheels. It is easy

to load from the front to the rear and because of the high drive wheels and roller bearings it is light draft—a most valuable combination.

No clutches—no chains—few adjustments to cause trouble—and it is extremely simple—only about half the parts that are necessary on the ordinary spreader.

The main working parts are mounted on the rear axle, where they cannot get out of line to cause binding, heavy draft and breakage.

The beater drive is much like the simple triple-gear horse-power. The gears are enclosed and run in an

There are so many other good features about this spreader that we want you to see it. You will quickly see why there are so many satisfied users of John Deere spreaders.

Canada Needs More Workers

With present prospects for a bumper crop in Western Canada this year—the brightest since 1914 says the Winnipeg Free Press—the railway companies all clamoring for thousands of unskilled laborers to be used in construction work, coupled with the announcement that if they are not obtainable hundreds of miles of badly needed branch lines cannot be built; with such a shortage of coal predicted that Western Canada will be forced to rely entirely upon the production from its own mines and with extensive road-building programs being deferred because the necessary labor cannot be obtained, the question of immigration to this country once again looms up as one of paramount importance.

During the war immigration was practically at a standstill, and, in addition, the energies of all people were diverted to war effort. As a consequence development work and construction programs of all kinds were halted. Now, after an interregnum of six years, there is an enormous amount of work to be done in order to "catch up." There may be a sufficiency of skilled labor, but there is admittedly a great shortage of unskilled workers. Yet there must be unskilled workers in order that the skilled workers may be kept employed.

No doubt Canada could obtain all the foreign labor it requires if it let down the immigration bars and threw the doors wide open to all and sundry who cared to come. But Canadian business has been so badly shaken by the mistakes of the past. The industrious, law-abiding, physically fit and morally clean of all the white races will be welcomed, but no longer will the offscourings of Europe, the mentally deficient, the morally lecherous, the physically unclean and weak, be allowed to enter Canada. To pollute this country, carry infection to others, and lowered the standard of our people.

The difficulty of securing the right type of immigrants, the only kind we are prepared to receive and welcome, is increased by the fact that while the war-impoorished countries of Europe are willing to allow the misfits and degenerates of their people to emigrate, they are anxious to retain the strong and sound in order to re-establish all the productive enterprises of their own lands. Canada's problem of securing immigrants of the right and only acceptable type is, therefore, no easy one.

According to United States government immigration officials only lack of ships is keeping back hundreds of thousands of prospective European immigrants from flocking to that country notwithstanding the post-war passport restrictions. The Chicago Tribune declares that "nearly six thousand aliens in many European countries have applied for permission to emigrate to America," and The Literary Digest says that for more than a month immigrants have been arriving in the United States at the rate of ten thousand weekly.

It will be seen, therefore, that notwithstanding the prescriptions now

enforced by the United States and Canada on undesirable, and the efforts of European countries to retain those of their own people who are of the desirable immigrant type, workers can be obtained if the government immigration officials bestir themselves. In particular, Canada should strive to secure new settlers and real workers from the British Isles and the United States.

Other countries are active and are offering inducements to the immigrants. We read in a United States paper:

"Numbers of Italians, Spaniards, and French are going to Argentina, where there are many of these nationalities already located. Free land is being given to the newcomers.

"Brazil is not only paying passage for immigrants, but takes care of them on arrival, and transports them free to their destination.

"Chile is inducing immigration by giving one hundred acres and implements to each immigrant.

"New Zealand has arranged with the shipping companies for reduced fares for desirable immigrants."

So, Canada will have many competitors in the effort to secure desirable settlers and workers. Yet no student of present day conditions in this country can question the need of additional population in this country. Without it, people now here must carry unduly heavy burdens of taxation, while at the same time going without convenience and services to which they are entitled and need in order to prosper as they should.

Governments can do much, but every individual can assist by making the newcomer welcome and assisting him in every possible way to "make good," and thereby become a satisfied and contented citizen, while the lot of the hired man or woman should be made as pleasant as it is in the power of the employer to make it.

Dread of Asthma makes countless thousands miserable. Night after night the attacks return, and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Kennedy's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are banished, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

A pure white clay found at Pompeii and has been used as such by the Romans.

Good for Father and Good for Son

MR. C. ROY PRAISES DODD'S KIDNEY PILLS

He States That They Relieved His Son of Bed Wetting and Himself of Bladder Trouble. — Ask Your Neighbor's About Dodd's Kidney Pills.

Thierville Office, Bonaventure Co., Que., June 21st.—(Special). — That Dodd's Kidney Pills have been successfully used by both old and young as a remedy for kidney ills is again shown by the statement of Mr. Clement Roy of this place.

"I am glad to be able to state," Mr. Roy says, "that Dodd's Kidney Pills relieved my little boy of bed wetting. They also helped my bladder trouble. I cannot say too much in praise of Dodd's Kidney Pills."

Dodd's Kidney Pills are a kidney remedy pure and simple. But bladder and urinary troubles come as a result of weak or diseased kidneys. The natural way to treat such trouble is to strengthen or help the kidneys. Mr. Roy acted on this principle when he used Dodd's Kidney Pills for his own and his son's troubles. The satisfaction he got is voiced by his statement.

If you have not used them yourself, ask your neighbors if Dodd's Kidney Pills are not the remedy for kidney ills.

Many a man hugs delusions who would prefer to embrace the real thing.

Irritated Itching Skins Soothed With Cuticura

Bathe With Cuticura Soap Dry and Apply the Ointment

These super-creamy emollients usually stop itching, clear away pimples, redness and roughness, remove dandruff and scalp irritation and heal red, rough and sore hands. If used for every-day toilet purposes they do much to prevent such distressing troubles. Nothing better, surer or more economical at any price.

Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Dispensary, Limited, 35, Paul St. Montreal.

Cuticura Soap shaves without rasping.

Germany Delivers Coal

Also Sends Livestock to France And Belgium

Up to May 30, German deliveries of coal to France under the treaty of Versailles, amounted to 4,686,000 tons. It has been officially announced by the reparations committee. Of this total 405,000 tons were given to Luxembourg, Italy received 316,000 tons, and Belgium 98,000 tons in the same period.

Germany up to the end of May, the announcement shows, also had delivered to France 6,547 horses, 40,720 head of cattle, 67,477 sheep and 7,575 goats.

German deliveries to Belgium in this period, were 3,116 horses, 43,489 head of cattle, 32,644 sheep, 6,140 goats and 28,339 fowl.

Similarity in Food Prices

Cost in Ottawa Slightly Higher Than in London, England

A remarkable similarity in the cost of groceries in England and in Canada is revealed in a comparison of a budget of household staples in the two countries, made within the last month. The figures are given out by a Canadian official. Pricing a score of staples, ranging from bread to custard powder, the whole supply costs about a dollar more in Ottawa than in London, England. Bread is 4 cents higher in Canada; sugar is ten cents per pound higher, and jam and marmalade range from ten cents to 18 cents higher here. But in England bacon, eggs, lard, milk, sausages, Worcester sauce, rice, oranges and dried fruits are all higher in price. Eggs were \$1 a dozen, and butter about \$1.10 a pound for good grade. Both these prices are due to a sharp decrease in London, however. Vegetables are still much cheaper in England than in Canada, and butcher meats average from 30 to 40 cents a pound. Coal is about \$1.25 a ton cheaper in England.

Watches Cleaned With Bread

No Other Substance Can Be Used With Success

Perhaps the most novel use to which bread is put may be seen in some of the great watch factories, where more than 40 loaves of fresh bread are, or were before the war, sometimes used each day. From earliest times in the history of watch-making it has been the custom to reduce fresh bread to the form of dough. This dough is used for removing oil and chips that naturally adhere in the course of manufacture to pieces as small as the parts of a watch. There are many parts of a watch, by the way, that are so small as to be barely visible to the naked eye. The oil is absorbed by this dough, and the chips stick to it, and there is no other known substance which can be used as a wiper without leaving some of its particles attached to the thing wiped. This accounts for the continued use of bread dough in the watchmaking history.

Teachers' Household Science Course

The University of Saskatchewan has recommended the establishment during the academic year 1920-21 of a one-year course in household science for teachers in the provincial schools, the course to include both foods and textiles as well as related subjects, including chemistry.

It takes a woman to smile when her rival is praised.

Counting in China

Ten thousand is the largest number in the Chinese language. Therefore all large sums must be stated in multiples of this figure—thus the population of the country is four times 10,000 times 10,000, or 400,000,000.

Livestock Often Shrink in Transit

Can be Avoided by Proper Precautions in Shipping

Investigation by the Colorado Agricultural College is beginning to show that shrinkage of live stock when shipped to market can be very greatly reduced. The most important thing is a comfortable car and not much crowding. The next thing is to have the animals well fed and contented when they are loaded and until they are sold at the terminal market. In other words, plenty of feed and water and comfortable quarters are most important.

"Some farmers," says R. W. Clark, live stock specialist for that institution, "ship regularly with little or no shrinkage, while others at all times have enormous shrinkage."

Trouble Brewing

Trouble is brewing in connection with the taking over of German airships by the Entente as provided for in the Peace Treaty, according to the Friedrichshafen correspondent of the Berlin Lokal Anzeiger. The correspondent states that the staffs of the Zeppelin works refuse to prepare airships for surrender to the Entente unless guaranteed that two big passenger airships shall be left and that no destruction of the workshops or their installations is contemplated.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. They are the ideal home remedy for the baby; being guaranteed safe and reliable, free from opiates or other harmful drugs. They are a gentle but thorough laxative and have been proved of great aid in cases of constipation, indigestion, colic, colds and simple fevers. Concerning them, Mrs. Ernest Gagne, Beauséjour, Que., writes: "I have used Baby's Own Tablets for constipation and colic and have found them so successful that I would not be without them. I would strongly recommend every mother to keep a box in the house." The Tablets are sold by medicine dealers or by mail for 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Settlers on Irrigated Land

Five thousand acres of land on the Canadian Land and Irrigation Company's tract have been purchased by settlers from the United States and are being put into crop. Water will be available this summer to irrigate the growth.

A girl thinks a man impertinent if he tries to flirt with her and indifferent if he doesn't.

UNFIT TO LIVE—MUST DIE

The verdict rendered a thousand times when corns get sore. Do them to death by Putnam's Corn Extractor; it cures painlessly in 24 hours. Use "Putnam's," the only vegetable remedy known, price 25c. at all dealers.

Getting A Start in the West

Choosing the Best Time to Come to Western Canada

Those who contemplate coming to western Canada are interested in knowing when is the best time to come to this country. Experience has shown that the best results are obtainable from land that has been broken during the summer one year and allowed to stand and put into crop the following season. The best time for breaking raw land in western Canada is during the months of June and July. Then the grass is long and the soil turned over at this time properly disintegrates, thus ensuring an excellent seed bed for planting the following spring.

Of course, considerable land in Western Canada is broken and put into crop the same season. Flax or oats is then generally sown because these grains ripen more quickly than wheat, but sometimes wheat is sown on spring-broken land. Often very good crops are harvested from such land, so that the land begins to pay for itself the first season, but it is doubtful if the results in the long run are as good as when the sod has been broken when the grass is fresh and long the previous summer.

From the above it is seen that from the middle of May to the end of July is the very best time to take up land in Western Canada in order to prepare it for crop the following year. This is especially true this year, when the enormous amount of moisture has placed the land in an ideal condition for breaking.

Minard's Liniment Lumberman's Friend.

RHEUMATISM

This is just the season when rheumatism with its grinding pain and stiffening of joints gets hold of you. Fight it with

Templeton's Rheumatic Capsules

Templeton's Rheumatic Capsules bring certain relief and permanent results. They are recommended by doctors and sold by reliable druggists everywhere. Write for a box or write to Templeton, 119 King St. W., Toronto. Mailed anywhere on receipt of price.

ASTHMA

Templeton's RAZ-M-A-H Capsules are guaranteed to relieve Asthma. Don't suffer another day. Write Templeton, 119 King St. W., Toronto, for a sample. Reliable druggists sell them at \$1.04 a box.

Plow Summerfallow Early

Plowing Should Be Completed Early In July at the Latest

The chief purposes of the summer-fallow are to store moisture and to kill weeds. Rains falling on freshly plowed land are more readily absorbed. The water is retained better, partly because the surface can be cultivated to reduce evaporation and also because there is no loss by the transpiration through the leaves of weeds. The latter is an important consideration, as it takes about 500 pounds of water to produce a pound of dry matter in common weeds. Furthermore, the rains falling on plowed land help to firm it, and nature thus does for nothing what costs money if done by mechanical means. The plowing should be completed early in July at the latest.

Plowing should be deep, at least seven inches, to provide a good reservoir for moisture. Follow the plow with the harrow, preferably a section attached to the plow, unless there is danger of drifting. In that case pack instead of harrowing. The weeds may be kept down and a mulch of small lumps and granules maintained by using the duckfoot cultivator. The disc pulverizes the soil of a summer-fallow unduly and increases the tendency to drift.

Ask for Minard's and take no other.

Returning to Old Land

While so far no general movement toward the return of settlers of central European origin is noticed, the prediction is made that after harvest many Rumanians and others from the Balkan states, will depart from western Canada for their former homes in Europe attracted by the favorable conditions under which they can exchange their Canadian savings for the money of their native land.

In a wild state the horse lives to be from 35 to 40 years old, while the domestic horse is old at 25 years.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" on Aspirin is like Sterling on silver. It positively identifies the only genuine Aspirin—the Aspirin guaranteed by physicians for over nineteen years and now made in Canada.

There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monheim-on-the-Rhine, Germany. While it is well known that Aspirin means Bayer, the public is advised to look for the Bayer cross on the Tablets of Bayer Company, which are stamped with their general trade mark, the "Bayer Cross."

England in Second Place With Turks

Anglo-Saxon Next to French Tongue Employed in Moslem Empire

The Germans have failed in their effort to stamp their culture upon the Turk and, instead, the English language is beginning to rank next to French in the commercial life of the Levant.

In the war period German language schools were opened throughout Constantinople, in which German officers were required to teach and German papers were circulated by all possible means. But the results were almost nil. Most of the schools were closed and failed to attract better classes, and French was too strongly entrenched as the language of trade and social intercourse to be displaced.

Since the armistice Italians have been working industrially to popularize their language and literature. Italian officers are now teaching schools as the Germans did. But their schools are well attended only in the poorer parts of the city.

Turkish is but little used in important commercial transactions in Constantinople as nearly all business men of whatever nationality speak French. The English who have been in business in Turkey for years generally transact their business in French.

There is no more effective vermifuge on the market than Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

you can build the best house at the minimum cost and in the bargain get

"BETTER LUMBER FOR HOME BUILDING"
THE IMPERIAL LUMBER CO. LTD.

The New Twenty-year Capital Return Policy

(Issued by The Canada Life)

A Young Man and His Future

He takes his first step in business affairs, is examined by the doctor, and creates an estate of \$5,000.

He improves the shining hour and impresses upon an important person, that he is in possession of an "estate."

His tendency to save and invest is noted by his employers.

He finds his savings of great assistance in buying a home.

And as time goes on he is enabled to enjoy many of the good things of life.

Absolutely guarantees the return at the end of twenty years of all annual deposits, with accumulated profits, after giving you insurance protection for twenty years.

Easily Understood:

1st. Deposits are made yearly. This is what you are saving, and at the end of 20 years the Canada Life guarantees the return of every dollar paid in.

2nd. Your life is insured from the day you make the first deposit,—for \$5,000, or whatever amount you decide.

3rd. Dividends are paid at stated intervals in addition to the return of all deposits at the end of 20 years.

4th. These dividends may be used to reduce the amount of your yearly deposits, or be allowed to accumulate at interest for 20 years.

5th. The cash value of Policy and Dividends represents a valuable asset, useful in business, and your "estate" is protected by the insurance.

6th. At the end of Twenty Years you can draw out all you have paid in, along with the accrued dividends—

---OR---

you can draw a Special Cash Guarantee, together with the Accumulated Dividends, making a substantial sum, and leave the \$5,000 Policy fully paid for and continuing to earn Dividends as long as you live—

---OR---

this Special Cash Guarantee may be applied to increase the amount of your policy to more than \$7500.

An Immediate Estate

The great advantage over any other form of investment is that a small percentage, paid yearly creates immediately an estate of \$5,000, or more.

These active, progressive years of life in which you are earning the most money are the years in which premiums can be more easily met.

Wheat Board May Continue for Another Year

Ottawa.—Remarks let drop by Premier Borden when outlining the legislation that stands between now and prorogation were taken to indicate that the Canada Wheat Board will continue another year. Sir Robert said the government was "considering legislation" on the subject and the question of the fact along with other measures outlined is thought to mean that the existence of the wheat control system will continue for another year any way. Any suggestion of permanency of the idea is likely to be scouted.

The matter has been the subject of a vigorous lobby for some months the grain exchanges and similar bodies have been very insistent upon control being relaxed and the old order reverted to, but on the other hand the recommendation of such an organization as the Canadian Council of Agriculture, and a considerable volume of approving press comment carry much weight. The proposal, if adopted will be in all probability only a matter of another year and will not embrace the wheat and elevator nationalization advocated in certain quarters.

Name British Objections

Marine Bill Would Prevent Use of Other Than U. S. Ships

Washington.—British objections to the enforcement of the new American merchant marine bill are understood to be based principally on two sections of the measure.

The first prohibits the carrying of merchandise in other than American ships between American ports via a foreign port. This would stop freight carriage between the United States and Alaska over Canadian railroad lines or in Canadian ships, which has grown into a business of magnitude. The other section directs the president to abrogate all treaties which restrict the right of the United States to impose discriminatory duties upon foreign shipping entering American ports.

Laborites to Frame Irish Policy

London.—The parliamentary committee of the Trade Union congress decided that a special trade union congress be convened in order that the whole trade union movement may define its attitude toward the production and handling of munitions of war for Ireland and Poland.

Steel Workers Win Strike

Sney Mines, N.S.—After a strike of two months, the steel plant machinists have announced that they will return to work. They struck in April for from 60 to 70 cents an hour and an eight-hour day. The men are to get 68 cents an hour for a ten-hour day.

Amendment to Civil Service Act

Ottawa.—In the senate an amendment to the Civil Service act was presented by Senator Fowler to take the employees and officials of the house out of the control of the civil service commission.

Coast Lumbermen Want Raise

Prince Rupert, B.C.—All employees of mills and logging camps east of Hazelton, B.C., are on strike for an eight-hour day and \$4 a day, with board, as a minimum.

May Regulate Export Trade of Certain Commodities

Ottawa.—A resolution supplementary to the production of an act to give the government power to regulate the exportation of any commodity produced or manufactured in Canada when circumstances call for such restrictions was introduced in the house of commons by Sir Robert Borden.

The prime minister explained that the resolution had been made that in the interests of the public, it would be necessary to restrict export of such articles as coal, sugar and newsprint. He asked parliament to postpone the usual discussion of

Eulogizes Canada

Manchester Guardian Says Dominion Never More Attractive to The Emigrant

London.—The Manchester Guardian publishes a special Canadian number containing a message from Sir George Foster. He says: "Canada welcomes every intimation of a renewal of interest and enterprise as displayed in the press and the business community of the Motherland in reference to overseas possibilities of which they have too long been neglectful."

The Guardian, editorially, says that nobody acquainted with the temper and aspect of the Dominion since the war can fail to partake of her optimism, nor, at the same time, fail to be impressed with the welcome moderation and sanity that characterizes it. There is no trace of the excessive booming so dangerous to her reputation in pre-war years, it says.

Continuing, the Guardian says: "On the contrary, both provincial and federal governments together with such responsible bodies as the United Farmers, are showing genuine anxiety to secure that investor and immigrants are given reliable facts and figures, and that the operations of the speculator shall be discouraged. Throughout the Dominion there is manifest an anxiety to be done with machine gun, the rule of the interests and the pull of the lobbyist, never, indeed, in her history, has Canada been a more attractive land to the immigrant with political ideas."

Cost of Living Still Going Up

Labor Gazette Reports A General Movement of Prices Upward

Ottawa.—The Labor Gazette reports that in prices the general movement continues upward, increases in grain, fodder, livestock, fuel, building materials and furnishings slightly more than offsetting decreases in eggs, milk, hides, textiles and in raw furs.

In retail prices the average cost of a family budget of staple foods in 60 cities was higher, rising to \$16.65 at the middle of May, as compared with \$15.99 in the middle of April, and \$7.42 in May, 1914. The chief increase was in potatoes, which averaged \$6.15 per bag, as compared with \$4.78 in April. Sugar also advanced, averaging 21.7 cents per pound for granulated, as compared with 19.5 in April. There were slight increases in some meats, and in several of the other lines, with decreases in eggs and milk. Coal and coal oil were also up, and rents averaging considerably higher.

Reward for Murderer's Arrest

Victoria, B.C.—A reward of \$2,500 is offered by the provincial government for information leading to the arrest or conviction of the unknown person who, on June 1, shot and killed Constable George Stanfield at Grand Forks, B.C.

B. C. Air Board Elected

Vancouver, B.C.—Lieut. Col. Hon. E. G. Prior, lieutenant-governor F. W. Peters, and Henry Bell-Irving are named as members of the British Columbia advisory council of the air board of Canada.

Young Turks Cause Trouble

Reported to be Plotting Revolt Among Mohammedans

Washington.—Details of the much-heralded uprisings in the Mohammedan world, against British rule and in favor of Turkish Nationalists and Bolsheviks, were received here in official advices. The reports confirm advices as to Moscow and Munich conferences received some time ago by the United States state department. Enver Pasha, Djemal Pasha and Talaat Pasha, Turkish Nationalist leaders, were reported to have conferred with Spartacists and Bolsheviks at Munich while representatives from India, Egypt, Afghanistan, Persia, Azerbaijan and Georgia met Turkish Nationalists and Lenin, the Bolshevik leader, at Moscow.

Plans for uprisings in the Mohammedan world, coincident with a Bolshevik thrust on Persia and India, are said to have been laid at these meetings. A force of 150,000 troops commanded by General Kuropatkin, was promised the Mohammedan world by Lenin at Moscow, it has been reported. Following the two conferences a training school was established at Moscow for representatives of the Turkish Nationalists, according to the official despatches received. From this school, after a rigorous course of instruction in the plans and objects of the conspiracy, groups of from ten to twenty and fifty of the "Young Turks," it is said, were sent to propaganda headquarters in Persia, Afghanistan, India, Egypt, Georgia, Azerbaijan and Bulgaria to promote intrigue and make ready for the march southward of the Bolshevik army through Persia to India, and southward toward Egypt.

Enver Pasha, chief of the Turkish Nationalist conspirators, it was reported, arrived in Berlin for a second visit last week, acting as the chief liaison of the Bolshevik-German revolutionists, and Young Turks. Djemal Pasha is reported to be in Moscow. According to the official reports, the Turkish Nationalist and Bolshevik propaganda has been particularly effective among the fanatic Egyptian tribesmen.

Official reports as received here for several months, have told of unrest in India and the effectiveness of the "Young Turks" propaganda there. Complete cessation of business as a protest against British policy toward the Caliphate was observed recently by Hindus, Parsees and Moslems alike, resulting in what was described as "an unprecedented loss to commerce."

Landed on Wilhelm's Jaw

Doorn, Holland.—There are persistent rumors in the village that the former German emperor has been assaulted by a Belgian, who showing a forged pass, gained admittance to Doorn Castle. It is asserted that the former emperor was wounded in the jaw and that the Belgian was arrested. It has been impossible thus far to ascertain whether these rumors are true.

Many Strikes in May

Ottawa.—A return in the commons shows that in May there were 73 strikes, involving about 12,000 people with a time loss of 145,168 working days. In April there were 44 strikes, 6,629 people idle and 84,009 working days lost.

Watching the States

London.—Walter Hume Long, first lord of the admiralty, declared in the house of commons that the admiralty was following important developments of the naval program of the United States with the greatest closeness.

Will Not Trade With Bolsheviks

Brussels.—An official quarters denial was made of a report that Belgium would join in the negotiations with Gregory Krassin, Bolshevik minister of trade and commerce, for a resumption of commercial relations with Soviet Russia.

French War Losses

Paris.—Final statistics of the ministry of war fixes the total number of French soldier killed during the great war at 1,362,872. Of this number the details of the fate of 61,854 are unknown, according to Matin.

Will Punish War Criminals

London.—Premier Lloyd George stated in the house of commons that the punishment of war criminals had not been abandoned. Such a course, he said, would be a grave dereliction of duty by the government.

More Divorces Granted

Ottawa.—Six more divorce bills were passed by the private bills committee, and there are still nine more divorce bills to be considered.

W. N. U. 1321

Charge Against De Valera

Self Styled "President of the Irish Republic" Has Had His Plans Upset

New York.—Charges were made and published by John Devoy, editor of the "Gaelic American," that \$50,000 of the money subscribed for "Irish Republic" bonds had been used to send to Chicago a "non-descript aggregation of individuals." Eamonn De Valera, self-styled "president of the Irish Republic," is held accountable by Devoy for this upset of plans. The New York World says the publication of the charges mark the open break between the De Valera group and the friends of Irish freedom.

"The situation is so acute that De Valera's plans have been wholly altered," the World says, "and he is on his way to New York, instead of going on to San Francisco for the Democratic convention." He will remain in the east until the arrival here of Archbishop Mannix, who is due in this city July 17. Archbishop Mannix, of Melbourne, Australia, refused to stand while "The Star Spangled Banner" was being played on the American steamer Ventura in Honolulu harbor recently.

To Preserve Peace

Organization of New International Body Under Way At The Hague

The Hague.—The conclusion of the jurists invited by the League of Nations to meet in this capacity for the organization of a permanent international court of justice opened its sessions here. The conference was inaugurated by Leonard Bourgeois, president of the French associated societies of Paris.

"It is terrible lessons of the war," said the French statesmen, "were necessary to make the peoples of the world understand that the basis of peace between nations did not lie in force." He declared that the proposed court would be a really permanent body, not merely a court of arbitration, and that it would render decision from which there would be no appeal. It would be necessary, he added, to have a strong organization to carry out the decisions which would be made in future by the body to be organized.

Turkish Capital To Be Under Allies

Internationalization of the Port of Constantinople Provided in Turkish Treaty

London.—Limited internationalization of the port of Constantinople and its inclusion within the zone of the straits is provided in the provisional terms of the Turkish treaty. This is disclosed by an official summary of the jurisdiction provided for the inter-allied commission of control.

Granted its own flag, budget and separate origin, the commission by the lines of the boundaries fixed for the "zone of the straits," will have authority over a territory larger than some of the smaller nations of Europe. Made almost sovereign in itself, the commission is to be practically independent of the League of Nations, as stipulation is expressly made that should it find liberty of passage of the straits interfered with, it shall take such measures as may be deemed necessary to preserve the freedom of the straits.

The zone includes not only the Bosphorus, Sea of Marmora and the Dardanelles, but also three miles off shore from the mouth of the Dardanelles, and the Bosphorus and the Aegean Islands of Samothrace and Imbros, Tenedos and Lesbos. A land zone is also provided extending from 10 to 17 miles northwest of the Sea of Marmora and 8-28 miles southeast of it.

Its northwestern limit is partly common with the district of Smyrna, 55 miles southeast of the entrance to the Dardanelles. The zone also includes an area on the western side of the Gallipoli peninsula which Turkey concedes to Great Britain, France and Italy for war memorials and cemeteries.

Hunt From the Air

Copenhagen.—Business men at Alesund, north of Bergen, intend during the coming summer to use seaplanes for seal and whale hunting in Denmark straits between Iceland and Greenland.

Spanish King to Tour

London.—The king and queen of Spain are to pay an informal visit to London, arriving on July 4. They will be accompanied by Prince Jaime.

Wilson Is Pleased League of Nations Is Campaign Issue

Big Profit in Shoes

Shoes Cost \$9.75 and A Toronto Man Pays \$22 A Pair

Ottawa.—In a judgment signed by commissioners W. F. O'Connor and James Murdoch, the Board of Commerce finds the Manhattan Shoe Company of Toronto, "guilty of an offence against the Combines and Fair Prices act in that they sold to Robert Lachapelle a pair of shoes for \$22, being a price higher than was reasonable and the board directs the company (K. N. and S. N. Saba) and each of them to mark in plain and legible figures, on the sole of each pair of boots, shoes, slippers, pumps and other like articles which now are or may hereafter for the space of twelve months from this date be held for sale, or offered for sale, by them, or either of them, the price to the customer."

This case involves the purchase of a pair of shoes from the Manhattan Shoe Company on May 8 for \$22. The shoes cost \$9.25 a pair, at the factory and express, laces and box for the shoes brought up the cost to the Manhattan Shoe company to 9.75. The shoes being thereupon marked up for sale at \$14 per pair, but were actually sold to the complainant on May 8 for \$22.00.

The board will forward to the attorney general for Ontario a recommendation that the guilty party be prosecuted.

Co-Operative Stockyards Are Successful

Encouraging Report Submitted By Directors at Meeting in Moose Jaw

Moose Jaw.—That the first four and a half months' operations of the Saskatchewan Co-Operative Stockyards have been completed with entire success, came to light when the first annual meeting of the shareholders was held in the Livestock Exchange building, Moose Jaw. The director's report was most encouraging and showed a comfortable surplus after providing for certain obligations and depreciation expenses.

A dividend will not be declared, it was decided, until the company had been in operation for a full year. The meeting was very well attended and the president, J. H. Grayson, and the manager, Edward Evans, were highly complimented on the splendid showing made by the stockyards in such a short time they have been in operation. The retiring directors, Senator Willoughby, W. A. Munns, of Moosejaw, and Trefle Bonneau, of Willow Bunch, were re-elected.

The shareholders expressed themselves as particularly satisfied at the large quantities of stock reported as having been received from the neighboring provinces of Alberta and Manitoba, as well as from the eastern and northern sections of the province.

House to Prorogue Soon

Ottawa.—It was learned that leaders on both side of the house of commons expect prorogation by the end of this week. Many members, however, do not think the house will rise before July 1 at the earliest.

Would Compel Irish to Take Oath of Allegiance

London.—The house of commons has tabled proposed amendments to the Irish Home Rule bill, designed to prevent setting up a republican parliament in Ireland, by making it essential that all Irishmen take the oath of allegiance to Great Britain in order to qualify for office.

The amendments also provide that under certain conditions, the British viceroy of Ireland would be empowered to assume supreme legislative authority. Sinn Fein sympathizers declared the amendments bore out their prediction that the government had "taken up their sleeve, adding that

New York.—President Wilson, in a special interview to the New York World, said he was "extremely confident that the Democratic convention will welcome the acceptance by the Republican party of my invitation to make the League of Nations the issue in this campaign."

"I am even more confident," the president said, "that such referendum will confirm my faith that the American people desire it above anything else, and that they will condemn the Republican policy of denying them the consummation of their hopes. No one will recommend a referendum on that issue more than I."

"The process by which the Chicago platform was accomplished," he continued, "seemed to me to have been essentially and scientifically Prussian inspiration and method. Instead of quoting Washington and Lincoln, the Republican platform should have quoted Bismarck and Bernhardi, because the Republican attitude regarding the supreme issue, that cannot be abandoned or disregarded, strongly suggests the arbitrary influences that dictated the doctrines of these two eminent persons."

"Every charge directed against me and my administration is obviously designed to belaud and negative the paramount issue confronting the people of America; to belog their sense of responsibility and make violation of the obligations they have assumed to be of small consequence."

"This thing 'The League of Nations,' lies too deep to permit of any political sculduggery, any attempt to sidestep or evade moral and humanitarian responsibilities, and much too solemn to treat so lightly or ignore."

Would Select Indian Chiefs

Old System of Hereditary Council May Be Done Away With

Ottawa.—That the government should institute the selective system of securing councillors for Indian bands wherever possible, and that there should be a standing select committee of the house on Indian affairs, were the resolutions brought into the commons by the special committee, to amend the Indian act, whose report was tabled recently.

The committee was of the opinion that administration of the affairs of an Indian community or band by the hereditary council might be detrimental to the best interests and progress of the Indians.

It therefore recommended that wherever such a system now exists, the government should ascertain whether the majority of the male members of the band of the full age of 21 were in favor of the adoption of the selective system of choosing councillors, and if so that the provisions of the Indian act in this regard should be brought into operation as soon as possible.

Plan to Keep Men on Farms

Montreal.—R. B. Sauvage, secretary of the United Farmers' Association of Quebec, announces that the institution will meet here to discuss what steps will be necessary for them to take in order to prevent men from deserting the farms and seeking work in the cities and also for the protection of those already engaged in tilling the soil.

Dublin.—A pitched battle occurred between a group of armed Sinn Fein and British soldiers at Ballinacorney military camp, near Dunmurry, in which many shots were exchanged. The raiders were finally driven off. No report was available as to whether there had been casualties.

Dublin.—The new policy of the British government toward Ireland, soon to be instituted, involves the unconditional release of all Sinn Fein prisoners who have not been convicted, it is learned on good authority.

SPECIAL ATTENTION GIVEN TO AUTO PARTIES

Otto Bethge, Proprietor

Jarrow.

Mr. F.C. McAgee left Jarrow to join his wife at Vancouver where he will make his future home.

Mr. J. Sakar and family arrived here and is settled in their new home. Mr. Sakar manager of the lumber yard here and wishes to make the acquaintance of one and all.

The Jarrow Sunday school picnic was called off on account of the unfavorable weather. However, a number attended the church in the morning and lunch was served at noon. Everybody reported a good time.

Messrs. Lindholm and Wyatt were visitors to the Capitol last week end.

The crops throughout the district are looking fine. The rain is coming in the old style and crop conditions were never better during the past seven years.

"Once bitten, twice shy" is an old saw but true, especially when applied to the conditions of the roads around here. We were out in the blivver a few days ago for a hour or so and returned feeling very senick and lacking several burrs and haywire. Other folks have spent the whole night in a mud hole. Think it over Mr. Councillor.

Fred Harding has erected a residence on his land south of Jarrow and is going ahead with breaking of same.

Jarrow Spotts day July 1st. Big Baseball tournament. Horse Races and all kinds of lively sports. Big money prizes. Come and have a good time. Dance at night.

The local garage have installed a free air system and are giving excellent service all around.

Another house has appeared in town. J. Mold is now 'one of us'.

A lawn social and a bazaar will be held on the school grounds on Saturday the 19th. Everyone is cordially invited to attend. Base ball and other sports are included in the program.

J. D. has purchased a new Chevrolet and with it and his wife are sojourning to the Capitol.

Mr. I. McMinn was a visitor to his home in Edmonton over the week end.

Jimmy Morrison purchased a new McLaughlin Six. We wish he was a councillor.

The butcher shop is a great improvement to the town and carries a good stock of meat all the time.

We are very sorry to lose Rev. Allen who is leaving Jarrow next Monday.

Jang Lee is a business visitor to Edmonton.

Dont forget the sports day on July 1st.

KINSELLA

About 30 children were entertained at the home of Mrs. Chas. Collas by Mrs. Collas and Mrs. Ed Miller last Tuesday afternoon the 15th. The occasion being in honor of the birthday of little Iva and Billie Barber, Harry Miller and Russie and Jack Collas. Games of many kinds were played outdoors until a storm came up and all went indoors for refreshments, after which the Badger school children sang until the storm ended.

Others present were Mr. and Mrs. Bruce Barber, Mrs. Lockheart and Miss MacNeill.

Viking, Thurs. July 1st, at office of King Edward Hotel

We would call your attention to the fact that we are not selling "Spex". Our work is to scientifically examine the eyes. If errors of refraction are found we are qualified to prescribe a correction. If a diseased condition exists we direct to a physician for treatment, thus saving our patients possible future suffering and perhaps permanent impairment, or loss of vision.

We have our own lens grinding plant and every prescription taken is specially ground. Our patients are not required to wait from one to four months on our work. The quality of the material used is the best we can procure.

Our repair department can furnish you prompt and efficient service. We can provide exact duplicate of any lens.

We conscientiously solicit your confidence and patronage.

Reference: Merchants' Bank, Saskatoon, Sask.

VIKING

The Edmonton papers last week were making glowing reports about wheat being up five inches in that neighborhood. At the same time, in the Clover Lodge district north of here, the wheat was up seven inches and the best ever seen. Since then we have learned that this was no exceptional instance but that grain throughout the Viking district was showing remarkable growth and compares favorably with any report from other parts of the province.

Hughie Farmer arrived from Scotland last Saturday where he has been for the past year. Mr. Farmer reports conditions in the Old Country quite unsettled. He may decide to settle in this district again. Hughie was one of the boys who went overseas from this district.

Mr. and Mrs. A. A. Long and son and daughter, Forrest and Bernice left last Saturday noon for Fergus Falls, Minn. where they will visit with relatives and friends for a few days after which they will purchase an auto and motor to points in Iowa. They expect to remain in States about two months.

T. F. Norris representing the Alberta Directories was in town Thursday taking orders for the 1920 Alberta Directory which his company is getting out for the province. Mr. Norris was formerly publisher of the Daily Free Press at Namaio, B.C. and we acknowledge a fraternal call.

Mr. and Mrs. Jas. Barnes of Mance have returned from a six months visit to the Old Country. It is fourteen years ago since they came to this district and this was their first trip back home. They noted many marked changes. During their absence the farm was operated by their three children, Willie, Mary and Grace, and the parents are very proud of the way they managed things as everything was ship-shape.

Time Table Changes Grand Trunk Pacific

Effective June 27th a general change in time takes effect on the lines of the G.T.P. railway.

On that date a new daily train will be inaugurated, known as the "National" between Winnipeg and Vancouver, operating over the lines of the G.T.P. between Winnipeg and Edmonton and the Canadian National between Edmonton and Vancouver. This will be one of the finest trains in Canada.

Westbound, "The National" will leave Winnipeg at 10.25 p.m., Saskatoon, 1.00 p.m., arriving Edmonton 11.25 p.m., and leaving Edmonton at 12.10 a.m., arriving Vancouver at 9.00 a.m. Returning leave Vancouver 8.00 p.m., arrive Edmonton 8.00 a.m., arrive Saskatoon 6.00 p.m., arrive Winnipeg 11 a.m.

The inauguration of this train gives a double daily service over the G.T.P. between Winnipeg and Edmonton. G.T.P. trains now known as Nos. 1 and 2 will be known as trains No. 3 and 4. Train No. 3 will leave Winnipeg daily at 6.30 p.m., and arrive Irma at 6.45 p.m., and Edmonton at 10.30 p.m., making all local stops. Train No. 4 will leave Edmonton at 9.30 a.m. daily and arrive Irma at 1.00 p.m. and Winnipeg at 3.30 p.m., making all local stops as at present.

Service will be continued through to Prince Rupert and Central B.C. points, as in the past, three days a week, leaving Edmonton on Tuesdays, Fridays and Sundays. Observation cars will be attached to these trains commencing July 1st, between Edmonton and Prince Rupert.

Change in Stations at Saskatoon — On and after June 27th all passenger trains will operate in and out of Canadian National station at Saskatoon in place of the Canadian Pacific station as at present.

New issue of time table folders will be available in a few days.

Public Notice.

On account of Thursday 1st July being a Dominion holiday the Cream stations at Irma will be open all day on Wednesday June 30th.

Card of Thanks.

We wish to thank our friends for the assistance and sympathy shown in our recent bereavement.
